

Non-regulatory indicators:

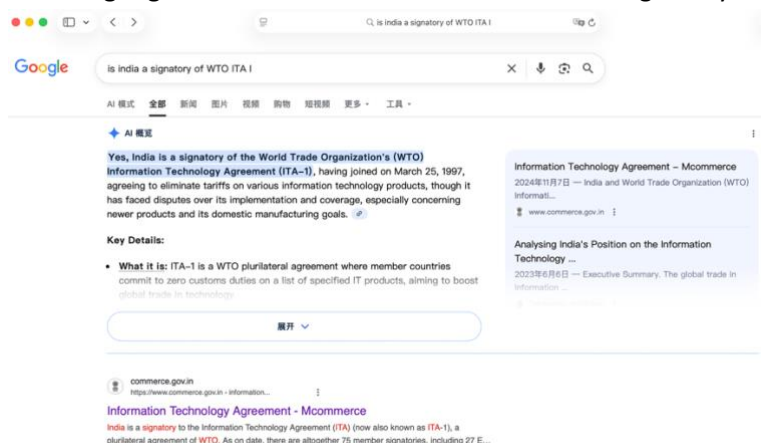

The following indicators are derived from external databases and internet research; therefore, an automated data retrieval method is not required. ***Please find further clarification of internet research outputs below the table.**

Indicator	Methodology	Description
1.1	Effectively applied tariffs on ICT goods (in weighted average) imported from other economies within the considered United Nations region (%)	Data from WITS database
1.2	No duty-free tariff lines on ICT goods from other economies within the considered United Nations region (%)	Data from WITS database
1.3	Not in the WTO Information Technology Agreement (ITA) of 1996 (ITA I) and its expansion in 2015 (ITA II)	Data from checking the participation status of the agreement.
2.4	Not in the WTO Government Procurement Agreement (GPA) and not fully covered the three most relevant services sectors (CPC752, 754, 84)	Data from checking the signatory status of the agreement.
4.4	Not in the WIPO Patent Cooperation Treaty (PCT)	Data from checking the participation status of the treaty.
4.7	Not in the WIPO Copyright Treaty (WCT)	Data from checking the participation status of the treaty.
4.8	Not in the WIPO Performances and Phonograms Treaty (WPPT)	Data from checking the participation status of the treaty.
5.6	Not in the WTO Telecom Reference Paper	Data from checking the append status of the Paper.
6.5	Not in an agreement with binding commitments on data transfer.	Data from checking the participation status of the binding agreements.
9.2	Internet shutdowns	Data from V-Dem database
12.10	Not in the United Nations Convention of Electronic Communications	Data from checking the signatory and ratification status of the Convention
12.11	Not in the UNCITRAL Model Law on Electronic Commerce	Data from checking the notification and adoption status of the Model Law
12.12	Not in the UNCITRAL Model Law on Electronic Signatures	Data from checking the notification and adoption status of the Model Law
12.13	Not in the UNCITRAL Model Law on Electronic Transferable Records	Data from checking the notification and adoption status of the Model Law

Internet research outputs:

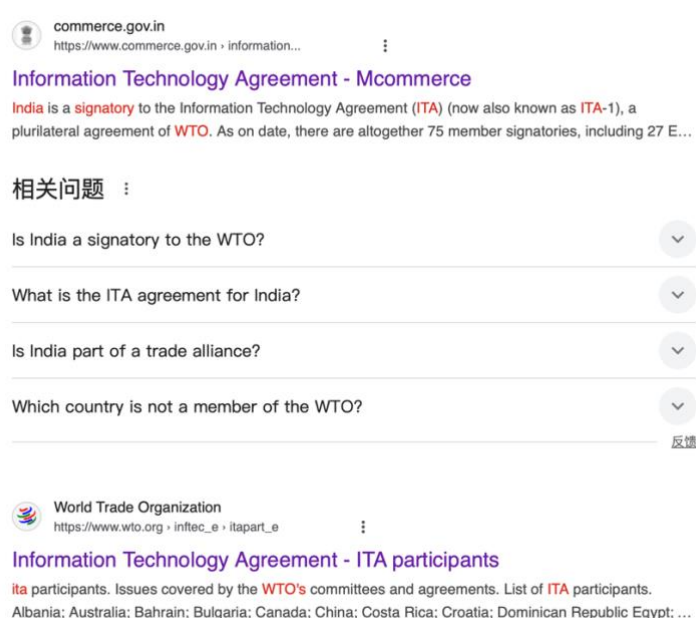

- For step-by-step guidance of indicator 1.1, 1.2 and 9.2, please see Annex I and Annex II of RDTII Guide 2.1.
- For indicator 1.3, 2.4 and 5.6, WTO-related agreements, researchers need to use search engines to check if the economy is a signatory of WTO ITA I & II, WTO GPA, and WTO TRP. For example: Researcher checks if India has signed the WTO ITA I & II.

1. Use google search: 'Is India a signatory of WTO ITA I'

2. Verify the answer.

Check the official government website and WTO official website. For example, the following two entries are reliable sources to tell if India has signed WTO ITA I.

3. Using the same method for checking if India is a signatory of WTO ITA II.

- For indicator 4.4, 4.7, and 4.8, researchers need to check the official WIPO treaties website for the list of the participants to check if the economy has signed the treaties. Specifically, the webpages for the three treaties:
 - WIPO Patent Cooperation Treaty (PCT): https://www.wipo.int/en/web/pct-system/pct_contracting_states
 - WIPO Copyright Treaty (WCT): https://www.wipo.int/wipolex/en/treaties/ShowResults?search_what=C&treaty_id=16
 - WIPO Performances and Phonograms Treaty (WPPT): https://www.wipo.int/wipolex/en/treaties/ShowResults?search_what=C&treaty_id=20

- For indicator 6.5 whether the economy is in an agreement with binding commitments on data transfer.

Researchers are required to search for the agreements that includes provisions refer to data transfer. For example, to check if Azerbaijan joined agreement concerning data transfer.

1. Researchers are suggested to search through search engine. 'Does Azerbaijan join agreements commitment to data transfer?'

Google does azerbaijan join agreements commitment to data transfer?

AI 摘要

Yes, Azerbaijan actively joins agreements and initiatives for digital/data transfer, focusing on transport digitalization (with Russia, China, Iran), AI/Big Data (with Presight), and aligning with international privacy standards like Council of Europe Convention 108, while also strengthening its digital infrastructure and connectivity through various partnerships.

Key Agreements & Commitments:

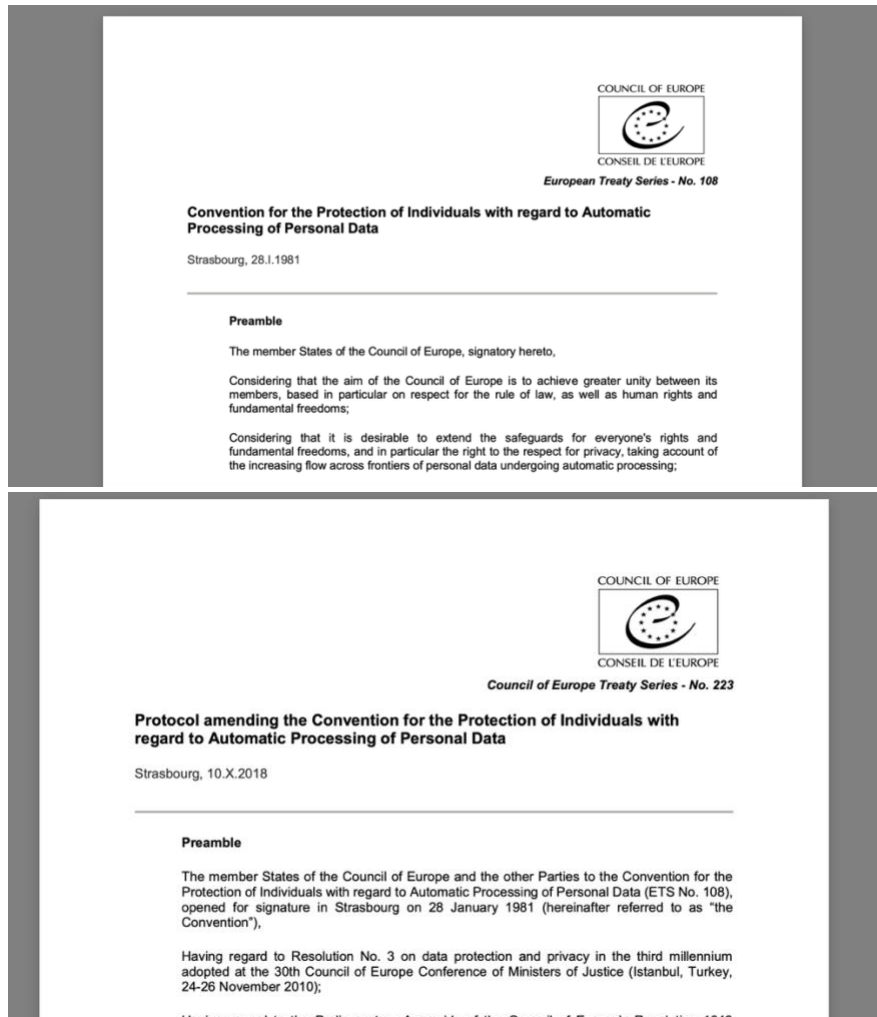

- **Digital Transport Corridors:** Signed agreements with Russia (railways, 2025) and Iran (data transit, 2025) to digitalize customs, logistics, and data exchange for efficient trade.
- **AI & Big Data:** Partnered with Presight (UAE) in 2025 to support national AI strategy, involving data analytics and infrastructure.
- **International Standards:** Member of the Council of Europe and signatory to Convention 108, ensuring data protection principles for personal data processing.
- **Regional Connectivity:** Collaborates with Kazakhstan, Georgia, China, and EU initiatives to develop digital transport routes and e-governance.
- **Cybersecurity:** Aligns its government's cybersecurity strategy with EU guidelines.

2. Researchers need to verify the results. Check the validity of the providing Treaty No.108. Finding the treaty and its related amendments, check if there are provisions related to data transfer.

3. Check if Azerbaijan is signatory to the treaty. Check the 'Chart of signatures and ratifications of Treaty 108' in the official treaty website.
<https://www.coe.int/en/web/conventions/full-list?module=signatures-by-treaty&treaty=108>
 4. Azerbaijan is a signatory and the treaty includes provisions related to data transfer, then researchers need to record in the database.
- For indicator 12.10, 12.11, 12.12, and 12.13, participation in international convention and Model laws. Researchers need to check the official UN Convention website and UNCITRAL Model law website for the **list** of the participants to check if the economy has signed the convention, and if the economy has adopted the UNCITRAL Model Laws.
 - Specifically, the webpages for the United Nation Convention of Electronic Communications, the result is obvious as the participation status has been listed in the following website:

https://treaties.un.org/pages/ViewDetails.aspx?src=IND&mtdsg_no=X-18&chapter=10&clang=_en

- Same method for participations in UNCITRAL Model Law on Electronic Commerce, researchers will be requested to check the following website:
https://uncitral.un.org/en/texts/ecommerce/modellaw/electronic_commerce/status
- UNCITRAL Model Law on Electronic Signatures:
https://uncitral.un.org/en/texts/ecommerce/modellaw/electronic_signatures/status
- UNCITRAL Model Law on Electronic Transferable Records:
https://uncitral.un.org/en/texts/ecommerce/modellaw/electronic_transferable_records/status
